Data Science
Solution in
Improving the
Occupancy of the
Nursing Facilities

Chien Yuan Chang 10/15/2021

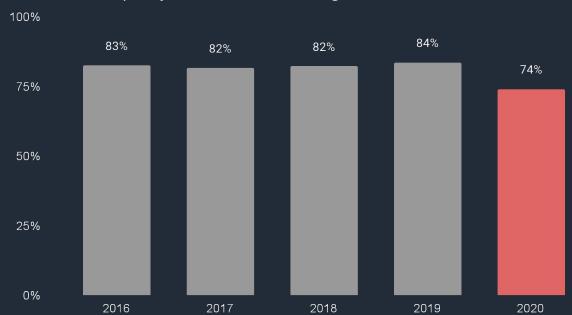

OUR TEAM

We provide data science, machine learning and AI solutions for our clients to solve their problems

What Happened Huge Drop in 2020 Due to the Pandemic

Occupancy at U.S. Skilled Nursing Facilities in Past 5 Years

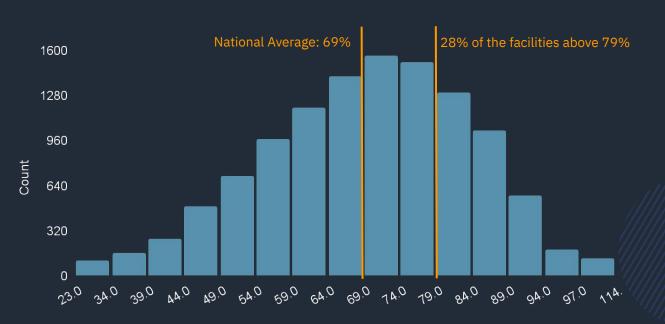

^{*}Data source: National Investment Center

The Problem

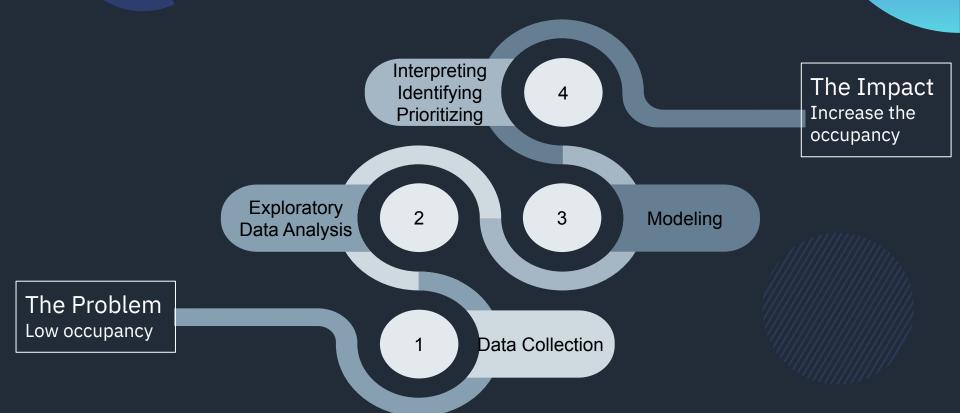

Nursing facilities with low occupancy

The Distribution of the Occupancy at U.S. Skilled Nursing Facilities

Our Data Science Solutions

A Regression Model to interpret the factors of the occupancy

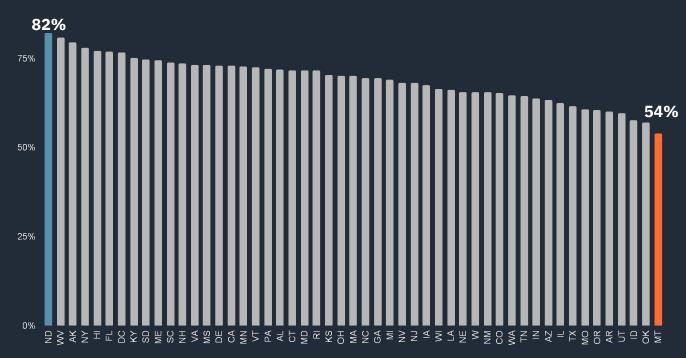

Preliminary Analysis - Dataset and Tools

- Data
 - "Provider Information" dataset
 - 15,265 nursing facilities with 88 columns
 - From CMS.gov (the Centers for Medicare & Medicaid Services)
 - 21 datasets of nursing homes including rehab services
- Tools
 - Excel
 - Data cleaning and analysis
 - o Tableau
 - Map visualization
 - Google Slides
 - Visualizations and presentation
 - Python
 - Baseline regression model

Preliminary Analysis - Area

Occupancy among States

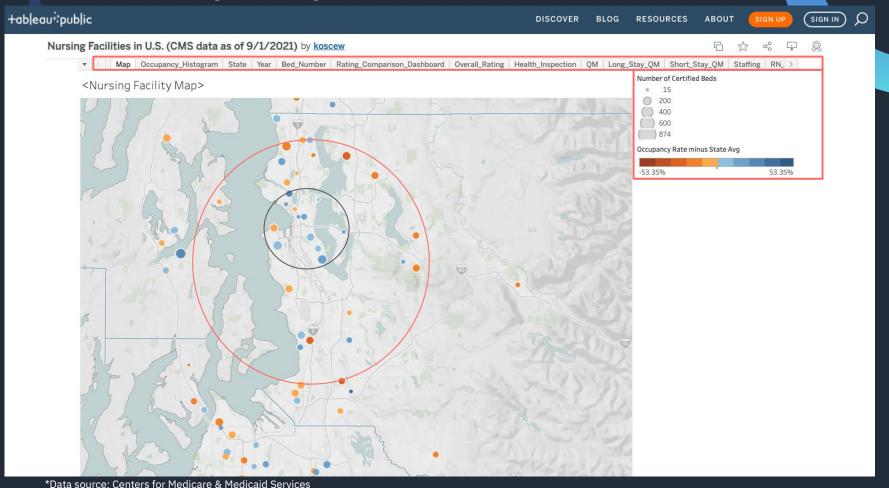

Control regional effect:

Use the difference between each nursing home and its state average occupancy as the target for EDA

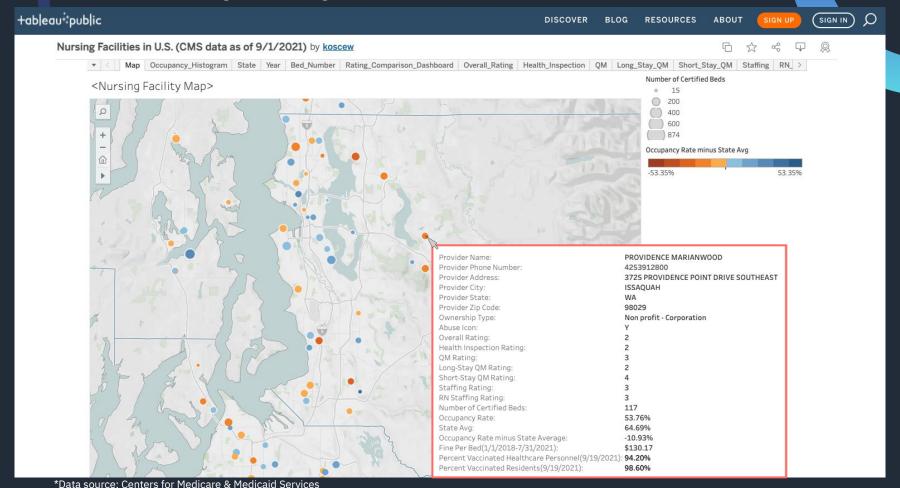

*Data source: Centers for Medicare & Medicaid Services

100%

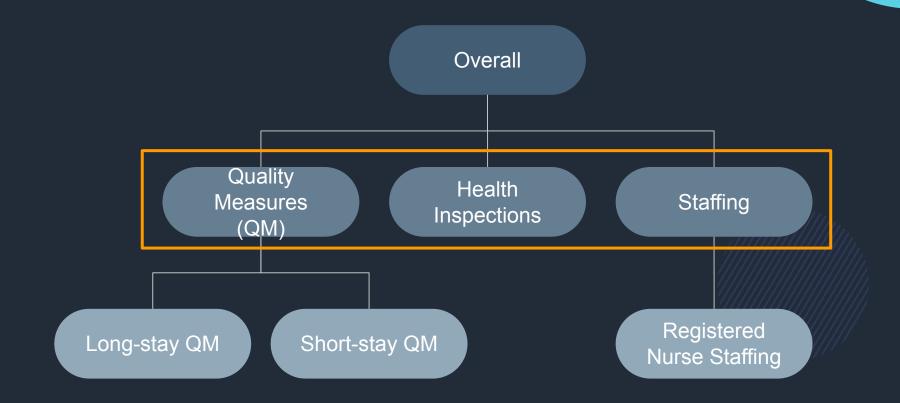

Preliminary Analysis - Area

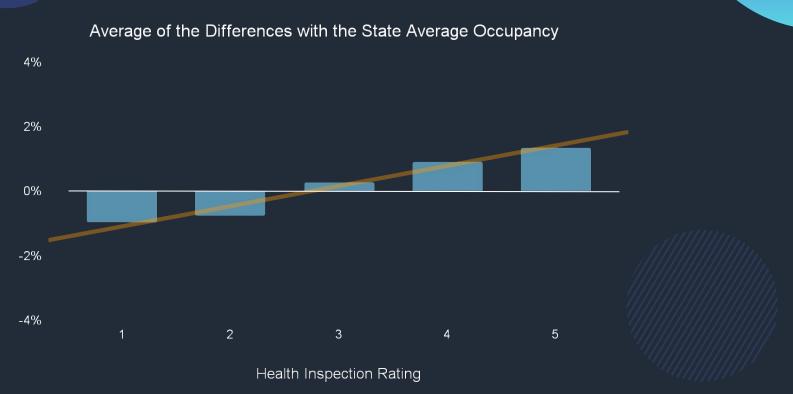

Preliminary Analysis - Area

Preliminary Analysis - Ratings

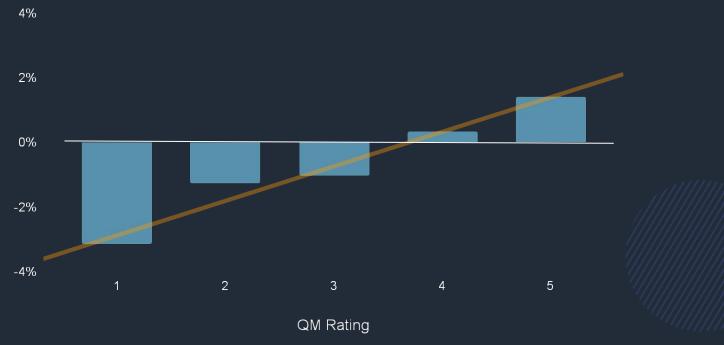

Preliminary Analysis - Health Inspection Rating

^{*}Data source: Centers for Medicare & Medicaid Services

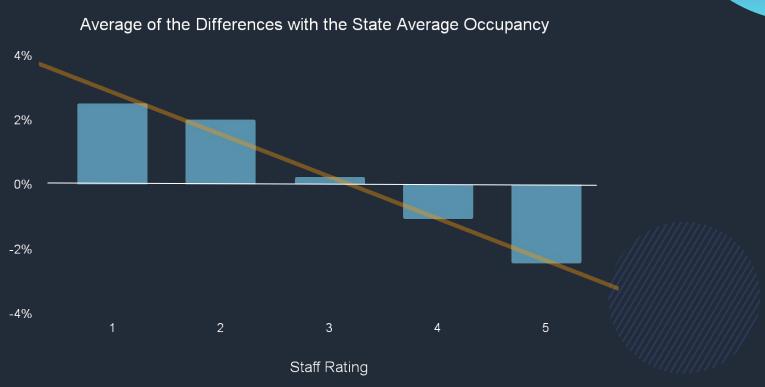

Preliminary Analysis - QM Rating

Average of the Differences with the State Average Occupancy

^{*}Data source: Centers for Medicare & Medicaid Services

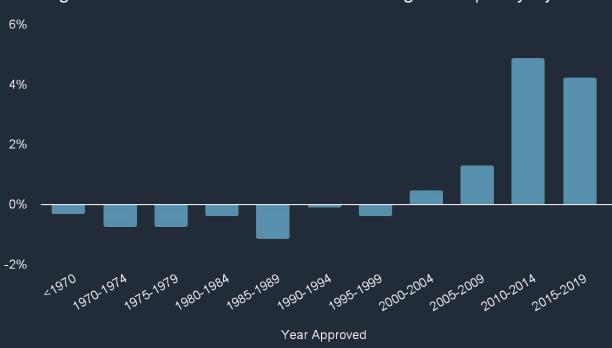

Preliminary Analysis - Staffing Rating

^{*}Data source: Centers for Medicare & Medicaid Services

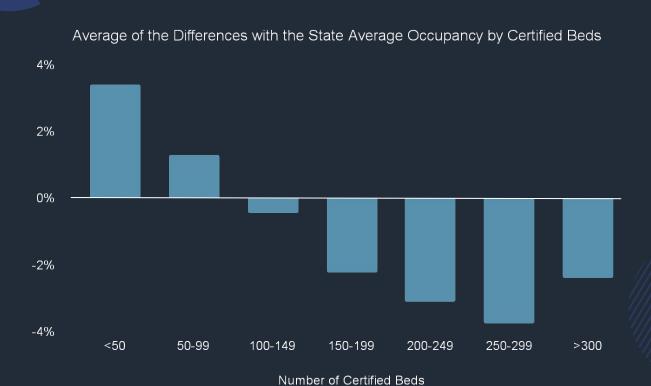

Preliminary Analysis - Year Approved

Average of the Difference with the State Average Occupancy By Years

^{*}Data source: Centers for Medicare & Medicaid Services

Preliminary Analysis - Certified Beds

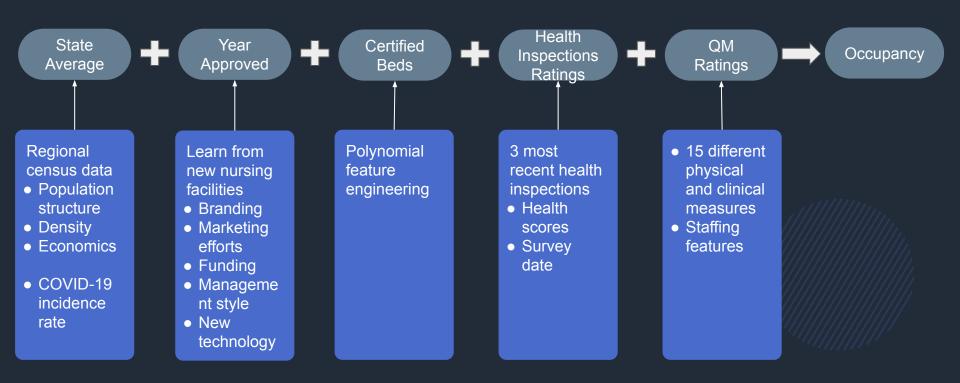

Baseline Model

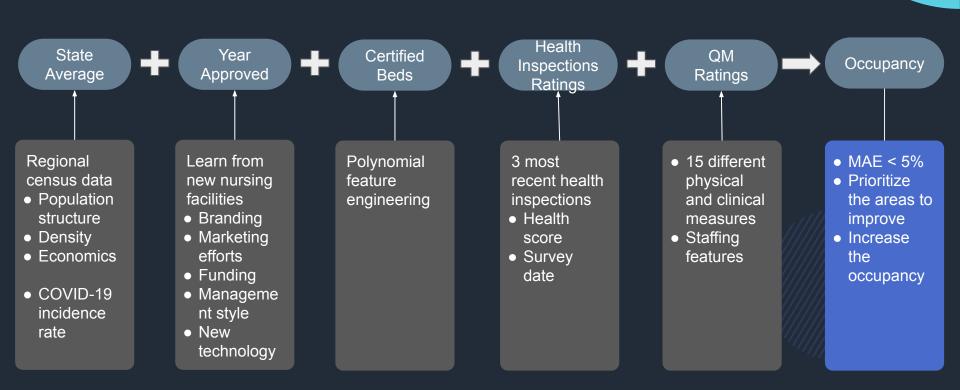

MAE = 0.105 (10.5%)

Future Work

Final Goal - MAE < 5%

Other Opportunities with Data Science

- Fines
- Readmission Rate
- Human Resources

Many other potentials!

Thank You!
